INTRODUCTION

The international beach-tchoukball Festival in Rimini comes up from the will to discover the technical and educational potential of beach tchoukball, with the desire to create an international event where tchoukball players of all ages and levels, from the world champion to the less experienced player, can meet.

The chosen festival formula is the one which reflects at most the Tchoukball Charter values, where the competition, always genuine and spectacular, comes out more from the will to play and have fun than from the desire for victory.

Rimini is the city which hosted the first European Tournament and the first edition of this festival in 2003. Since then this beautiful city on the riviera romagnola welcomes this ever-growing event.

Matches are played in Viserba beach, on about 20 fields placed on three seaside resorts: Marinagrande, Playa Tamarindo and Bahia Rico's Cafè.

This document has the purpose to discipline every issue regarding this festival; every unwritten rule so far accepted based on mutual understanding and tchoukball spirit is still valid in everyone's behaviour with the organizers, referees, players and team mates.
