INTRODUCTION

The international beach-tchoukball Festival in Rimini comes up from the will to discover the technical and educational potential of beach tchoukball, with the desire to create an international event where tchoukball players of all ages and levels, from the world champion to the less experienced player.

The chosen festival formula is the one which reflects at most the Tchoukball Charter values, where the competition, always genuine and spectacular, comes out more from the will to play and have fun than from the desire for victory.

Rimini is the city which hosted the first European Tournament and the first edition of this festival in 2003. Since then this beautiful city on the riviera romagnola welcomes this ever-growing event.

Matches are played in Viserba beach, on more than 10 fields placed on three seaside resorts: Marinagrande (from 24 to 28 on the map), Playa Tamarindo (from 29 to 33) and Bahia Rico's Cafè (from 35 to 36).

This document has the purpose to discipline every issue regarding this festival; every unwritten rule so far accepted based on mutual understanding and tchoukball spirit is still valid in everyone's behaviour with the organizers, referees, players and team mates.

FESTIVAL STRUCTURE

2010 Rimini Festival will be made up of 4 different tournaments one for every category:

- UNDER 14 tournament;
- UNDER 19 tournament;
- OPEN tournament;
- SLAM tournament;

To each team will be assured a certain quantity of playing minutes, which can vary from categories. Playing time will change also depending on the number of team entered in the tournament as well as depending on the results (who gets higher in the ranking usually plays a few matches more).

In case of bad weather it's possible that the match schedule and/or the match length will be reduced.

A team can enter only for one of the tournaments even if it has the necessary requirements for more than one. Team must be composed of at least 5 players (however we suggest to enter 6 players per team).

FESTIVAL'S SCHEDULE

The Festival's schedule will be uploaded at latest one week before the festival start.

It will include the list of all the teams divided by tournament and by round, and with the schedule in two different versions:

- general schedule: times for meetings, events linked with the festival, matches, ecc...
- tournament schedule: each team should print it and have it during the festival, it gives the precise schedule of the matches (who's playing with whom) and the refereeing turns;

In the general schedule is marked the Briefing time for the teams' responsables who will be in Rimini on Friday night; in this occasion the Organization Committee will give out the tags with the teams' names for the matches and will tell useful advices for the correct match management (game and refereeing)

In the second timetable the tournaments are identified by colour: U14 is yellow, U19 is blue, Open is green and Slam is red.

In the qualifying rounds teams' names are written with the name given at the registration (the name given could not be the name inserted at the moment of the registration if it's too long and causes page layout problems. So we suggest you to use a short name for your team).

During the finals teams are marked with their ranking in the qualifying round (for example 1A on green background will be the first classified in the A round of the Open Tournament) or as the winner (W) or loser (L) of the match in a turn and field (F); for example W39F3 is the winning team on the field 3 during the 39 turn of matches.

The same will be for the refereeing.

Hereunder there's as an example the Open Tournament matches played in the 2007 edition on Sunday morning on fields 5 and 6.

The first column indicates which turn belongs the match, in this example turns go from 29 to 42 because the first 28 turns have been played on Saturday.

The second and third column show the time of start and end of the match (except delays).

The fourth and fifth columns show which teams have to play on field 5 while the seventh and eighth which teams have to play on field 6. This four columns has a green background to identify the Open tournament, the green tone changes to show the difference between rounds or (from turn 36) to identify different stages of the finals (quarter-finals, semifinals, finals). The turn 35 is the break between the rounds and the finals. Columns 6 and 9 have a grey background (as every column showing the refereeing) and show the team that has to referee (and keep the score) in the match played by the teams written in the 2 columns on the left.

Let's take as an example the match played on field 6 at turn 31.

It has been played by the teams "P TB Empoli" ("Piazzetta Tchoukball Empoli") and "Paris Paris" and refereed by "B. Sportivando" ("Bergamo Sportivando"). Of these three teams only Paris Paris has a name short enough not be shortened.

Let's take as an example the match on field 5 turn 38.

It has been played by the seventh classified in the round A with the seventh classified in the round B while the team that has to referee (W36F5) is the winning team of the match played on field 5 (F5) at turn 36 (W36). This team is the winner between the first classified in the round A (1A) and the fourth classified in the round B (4B).

N.B. IT'S ABSOLUTELY IMPORTANT TO PAY THE MAXIMUM ATTENTION TO THE REFEREES SCHEDULE, ESPECIALLY DURING THE FINALS.
